

Better Outcomes. Better Communities. Better World.

State-Specific Education and Resource Module Program

Unlock the core of understanding workers' compensation with our State-Specific Training & Resource Module Program. Master the specific claim, legal, and ethics requirements of the jurisdiction(s) in which you work with our online courses and other useful content, tailored for each state.

Learn Anywhere, Anytime

Our program is available on mobile, allowing you to learn at home, in the office, or on the go. Our virtual campus lets you study at your own pace in a comprehensive yet easily navigated environment.

More Than Just Initial Training

Our annual subscription provides ongoing information and support. Most state modules are equipped with comprehensive "State Resource" areas, which include useful information such as legal summaries, links to workers' compensation statutes and rules, and a list of important state-specific websites.

Stay Updated

Our classes are updated annually or as needed based on legislative and regulatory activity. As new state modules come online, they will be automatically added to your subscription at no additional cost.

Certificate of Completion

A Certificate of Completion is available upon successful completion of the courses, offering credit towards WRP recertification, and for submission to other associations and educational entities.
