

Better Outcomes. Better Communities. Better World.

Technology Essentials (ATEC-TE) Certification Program

Dive into the digital age of workers' compensation with the Technology Essentials (ATEC-TE) Certification Program. This comprehensive course, created in collaboration with **Plethy**, is designed to equip you with a foundational understanding of the technologies reshaping the workers' compensation landscape.

Expert-Led Modules

Learn from a faculty of industry experts through eight insightful modules that cover the entire spectrum of technology within the claims workflow. From cybersecurity to claims modeling to artificial intelligence, gain clarity on complex concepts and their implications for your role.

Flexible Learning

Study at your convenience with our virtual campus, accessible on mobile and desktop. Our program allows you to learn at your own pace, ensuring a thorough and manageable education experience.

Stay Ahead of the Curve

With technology rapidly advancing, it's crucial to stay informed. ATEC-TE graduates will not only understand the "big picture" but will also be prepared to adapt to new technological advancements, making more informed decisions for better outcomes.

Enrollment and Certification

Enroll now and embark on your journey to achieving the ATEC-TE certification. Upon successful completion, you'll be recognized for your enhanced understanding of technology's role in workers' compensation.

Join the Community

By participating in the ATEC-TE program, you become part of a community dedicated to improving the workers' compensation industry through education and technology.
