Workers' Recovery Professional Associate Certification (WRPA)

Our Workers' Recovery Professional Associate Certification program is a condensed, foundational course in Whole Person Recovery Management. It is designed to provide a comprehensive introduction to the field of workers' compensation, making it ideal for both entry-level employees and experienced professionals of all job categories looking to broaden their understanding, as well as organizations wanting to enhance existing training programs.

Program Focus

The WRPA curriculum is comprised of base courses from the 9 schools of discipline that make up our flagship WRP program. It addresses the "what" and "why" of the Work Comp ecosystem, mixing hard and soft skills into a "Work Comp 360" claims advocacy approach. The program is perfect for those who want to "wade in gradually" to the Whole Person Recovery Management Philosophy.

Key Features

* Comprehensive curriculum covering 9 schools of discipline

* Ideal for people and companies in need of quality training, yet concerned over time and price requirements

* 18 of 19 credits from the WRPA are immediately transferrable to our flagship certification, the Workers' Recovery Professional program

* A community-driven approach developed by skilled volunteers

* Available anywhere and at anytime, you can learn at your own pace.
